

SYNTHETIC GLOSS BLACK ENAMEL PAINT - SCB460

TECHNICAL DATASHEET

DESCRIPTION

Acrylic based gloss black paint top-coat.

BENEFITS

Acrylic formulation for greater flexibility.
Gives excellent adhesion.
Compatible with most materials.
Can be applied over previously painted surfaces.
Wear and scratch resistant.
High opacity.
Lead free.
Excellent UV stability - non-fading, lasting gloss.

DIRECTIONS

Ensure surface is clean, dry and free from grease. For uneven surfaces and those requiring a complete colour change, apply primer first. Prepare with a light sanding for good adhesion. Shake can vigorously for 2 minutes and spray light coats with a sweeping action from 25-30cm. After use, invert can and spray to clear nozzle.

TECHNICAL DATA

| | |
|-------------------|--|
| Appearance: | Gloss black. |
| Odour: | Solvent/ paint aroma |
| Contents: | Blend of pigments, viscosity modifiers, stabilisers, solvents and hydrocarbon propellants. |
| Storage: | Below 50°C |
| Flash Point: | <0°C |
| Relative density: | 0.735 |
| Solubility: | Insoluble in water. |
| Pack sizes: | 12 X 400ml cans. |
